EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer M. McCue on 09/10/07. The application has been amended as follows:

In the claims:

Claim 53. (cancelled)

Claim 54. (cancelled)

Claim 53. (cancelled)

Claim 54. (cancelled)

Claim 56. (Newly Added) The micro-lens array of claim 1, wherein at least one of the plurality of micro-lenses has a different size than another one of the plurality of micro-lenses.

Claim 57. (Newly Added) The micro-lens array of claim 1, wherein at least one of the plurality of micro-lenses has a different profile than another one of the plurality of micro-lenses.

Claim 58. (Newly Added) The micro-lens array of claim 8, further comprising a plurality of openings in the semiconductor substrate forming a plurality of molds, wherein each

Art Unit: 2873

opening mold contains lens material that forms a respective plurality of micro-lenses, each of the micro-lenses having a respective focal point, wherein the focal point of at least one of the plurality of micro-lenses differs from the focal point of at least one other of the plurality of micro-lenses in the same opening.

Claim 59. (Newly Added) The micro-lens array of claim 8, wherein the focal point of at least one of the plurality of micro-lenses differs from the focal point of at least one other of the plurality of micro-lenses such that the focal points of the plurality of micro-lenses change gradually across the micro-lens array.

REASONS FOR ALLOWANCE

2. Claims 1-11, 49-52 and 55-59 are allowed. The following is a statement of the examiner's reasons for allowance. Regarding claims 1 and 8, the prior art fails to disclose that each of the micro-lenses having a respective focal point, wherein the focal point of at least one of the plurality of micro-lenses differs from the focal point of at least one other of the plurality of micro-lenses. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

3. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2873

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
